Spring Term

OUR LEARNING

Our topic this term is **Sow, Grow and Farm**. We'll explore the amazing journey from seed to plate, investigate how plants grow, experiment with soil and water and discover different types of farming. We will learn how our food is produced, why farms are so important and how we can look after the natural world.

MATHS

- The four operations
- Factors and Multiples
- Decimal numbers
- Co-ordinates and angles
- Perimeter, area and volume

ENGLISH

Our fiction book this term will be *Holes* by Louis Sachar.

In writing, we will be focusing on narratives written in third person, Instructions and letters of persuasion

OTHER SUBJECTS

Science: Properties and changes of materials.
Art: Line, Light and Shadows and Nature's art
PE: Fitness, Dance and Tri-Golf
DT: Eat the Seasons

Computing: Video and Animation production.
PSHE: Dreams and Goals and Healthy Me
RE: What matters most to Christians and Humanists?

HOME LEARNING

Here are some ideas for Home learning projects:

- Create a pictorial project glossary about different types of land use, like allotment and floriculture.
- Find a recipe for a seasonal meal, using ingredients that grow in winter.
- Create a still life painting featuring seasonal fruit and vegetables.
- Gardens and allotments are home to many living things. Create food chains for these habitats.

We will be sharing our learning with the rest of the school on Friday 13th March so make sure they are handed in by then.

Our Assembly:
Friday 30th
January 2026
