

Key Instant Recall Facts

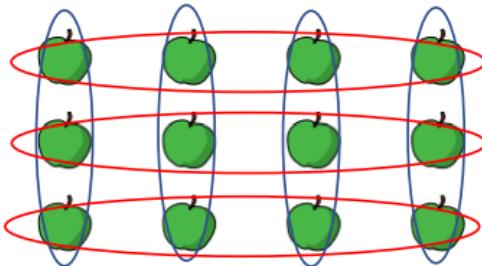

Year 1 – Summer Term 5

By the end of this half term, children should know the following facts. The aim is for them to recall these facts with speed and accuracy:

I can make and talk about simple arrays

Children should be able to discuss and make simple arrays using counters, objects or drawing.

This array shows four groups of three apples. It also shows three groups of four apples.

Key vocabulary:

array
group
equal groups
share
times
multiply

Top tips

The secret to success is practising little and often. Use time wisely. Can you practise this KIRF whilst walking to school or during a car journey? You do not need to practise all aspects of the KIRF all at once; perhaps you could have a fact of the day, or a few facts per week to practise? If you would like more ideas, please speak to your child's teacher.

Practical resources and ideas

Practice making arrays with small objects at home or counters if you have them.

Can your child identify the equal groups? Talk about what they can see. Ask your child to make an array, eg. "Can you make an array to show 2 groups of 4 counters?"
