

# Key Instant Recall Facts

## Year 3 – Summer Term 6

By the end of this half term, children should know the following facts. The aim is for them to recall these facts with speed and accuracy:

### I know the multiplication and division facts for the eight times table

Children should be able to instantly recall the 8 times table facts below:

#### Key questions:

What is 4 multiplied by 8?

What is 8 times 5?

What is 32 divided by 8?

#### Top tips

The secret to success is practising little and often. Use time wisely. Can you practise this KIRF whilst walking to school or during a car journey? You do not need to practise all aspects of the KIRF all at once; perhaps you could have a fact of the day, or a few facts per week to practise? If you would like more ideas, please speak to your child's teacher.

#### Practical resources and ideas

- Fact families: give your child an eight times table fact. Can they write down the three calculations that go with that fact?
- Play test the parent; Can you beat SIRI?; Sing eight times tables songs (YouTube).
- Can you spot patterns, for example:  $56 = 7 \times 8$  (5, 6, 7, 8) or double your fours
- Can you build the 8 times table out of LEGO?
